

On behalf of my family and my mother, I would like to commend the work of Lilia Dineros who has served as a live-in companion for my mother, Mrs. Nike Milias, since January, 2003. Lilia has been nothing short of excellent in the care and attention and respect that she has demonstrated to my mother and to us, her children. This commendation is made without reservation.

There is literally nothing that Lilia cannot do. She is an imaginative, creative and bright individual who anticipates her client's needs. She is dependable and has not once left us hanging without coverage. She is willing to go beyond the job description to provide a comfortable physical and emotional environment for my mother. We hope that she will return to my mother's home when she returns from the Philippines. Regardless, we wish her well and will always hold her in the highest esteem.

With best regards,

Mary Ann Milias
